Opozorilne poštne etikete in njihova uporaba

Lomljivo

Simbol zdrobljenega kozarca označuje izredno krhke predmete, ki bi jih z neustreznim ravnanjem lahko poškodovali. Menimo, da je bistvenega pomena za pošiljanje kakršnihkoli umetniških del.

Rokuj pazljivo

Ta simbol nakazuje, da je treba z embalažo ravnati previdno in da je vsebina občutljiva. To je mednarodni opozorilni simbol, ki ga embalažna industrija uporablja za označevanje krhkih paketov za pošiljanje. Gre z roko v roki z ikono zlomljenega kozarca.

Hrani na suhem

Simbol dežnika se uporablja za označevanje predmetov, ki jih je treba hraniti stran od vlage in vlažnih okolij. Menimo, da bi morala vsa umetniška dela biti poslana v nepredušni embalaži, vendar uporaba te oznake pri odpremi pošiljk nikoli ni odveč.

Ta stran navzgor ali Vrh

Ti dve puščici, usmerjeni navzgor, kažeta na vrh embalaže in označujeta, da mora biti paket vedno hranjen in transportiran v ustreznem pokončnem položaju. Ta simbol je običajno na tovornih paketih, vendar je zelo pomemben tudi za pošiljke, ki vsebujejo kakršnakoli umetniška dela.

Odpri tukaj ali Odvij samo to stranico

Ta simbol označuje, kje je treba zabojnik ali škatlo odpreti. Namesti se na pokrov oz. odpiralno stran embalaže ali zabojnika. Čeprav je to pomembno pri označevanju pokrovov zabojnikov, ni nujno za pakete, pri katerih je odprtina očitna.

Ne nakladaj v višino

Ta simbol opozarja, da je navpično zlaganje pošiljk na označen paket ali zabojnik ali zlaganje samega paketa ali zabojnika na druge pošiljke izrecno nezaželeno. Uporabo te oznake priporočamo pri pošiljanju kakršnihkoli umetniških del.
